CUTTING & GRINDING RANGE

We offer one of the most comprehensive bonded abrasives ranges available in the UK market. Our signature Cutting, Grinding & Extra Thin discs are available in a range of quality levels and sizes for use on a wide range of applications. We also offer an extensive range of specialist products including Vitrified Wheels and our Multi Discs & Grinding Range offering maximum efficiency, versatility & performance.

DISC TYPES & APPLICATIONS

We stock a comprehensive range of premium quality Cutting, Grinding and Extra Thin Discs available for every application.

RANGE INFORMATION

All Abracs discs are subject to our rigorous quality control procedures and are manufactured to European safety standards. We have classified the range into 3 star, 5 star and 'Black Edition' quality levels & application types to make selecting the right product as easy as possible.

ABRASIVE CUTTING DISCS

Our Cutting Discs offer consistent and smooth cutting, maximum product lifespan, performance and quality. Available in a comprehensive range of sizes for a wealth of applications including metal, stone, stainless steel and aluminium cutting supplied in both Proflex and Phoenix quality levels.

ABRASIVE GRINDING DISCS

Our Grinding Discs offer heavy duty abrasive grinding, excellent performance and incredible product life. Available in a comprehensive range of sizes for a wealth of applications including metal, stone, stainless steel and aluminium grinding supplied in both Proflex and Phoenix quality levels.

EXTRA THIN CUTTING DISCS

Our Extra Thin Cutting Discs are INOX, designed for fast and precise low vibration cutting. They are both high performance and long lasting. Suitable for a wealth of metal cutting applications including stainless steel available in Proflex Trade, Phoenix Pro & Black Edition Expert quality levels.

QUALITY LEVELS

PROFLEX

PROFLEX TRADE Cutting, Grinding and Extra Thin Discs are extended performance, professional quality products manufactured using high quality materials with an attractive price-performance ratio for the price conscious consumer.

PHOENIX

PHOENIX PRO Cutting, Grinding and Extra Thin Discs are ultimate performance, produced to O.S.A. Safety standards & manufactured using premium quality materials, giving excellent life, offering one of the best cost per cut ratios in the market.

BLACK EDITION

BLACK EDITION EXPERT Extra Thin Discs are 30% Extra Performance, reduced vibration & ultimate performance, produced to O.S.A. safety standards & manufactured using premium quality materials, our highest quality cutting disc produced to date.

APPLICATION GUIDE

METAL

Metal cutting discs are suitable for a wide range of metal applications including mild steel, iron, sheet steel & construction steel.

INOX

INOX cutting discs are specially designed for use on stainless steel as well as a wide range of non-ferrous metals.

ALUMINIUM

Aluminium cutting discs are specially designed for use on Aluminium as well as a wide range of non-ferrous metals.

ABRASIVE MARKING SYSTEM

Training and additional information on the safe use and fitting of abrasive wheels is available from Abracs.

METAL CUTTING DISCS

Abracs Cutting Discs are available in both Proflex Trade & Phoenix Pro quality levels for metal applications in an extensive range of sizes. Our experience in manufacturing processes developed over nearly 3 decades, combined with the use of premium quality raw materials enables us to produce cutting discs with significant increases in product lifespan, performance and quality. All Abracs cutting discs are manufactured to European safety standards and marked with EN12413.

Proflex discs offer professional quality performance and are a great value product, priced competitively with an exceptional cost per-cut ratio.

Phoenix discs are produced to O.S.A. Safety standards. Manufactured using premium quality materials, Phoenix II discs offer ultimate performance, long life & outstanding value.

PHOENIX

SILVER CUTTING & GRINDING DISCS

Phoenix Silver is a European manufactured disc range free from Iron, Sulphur and Chlorine. Similar to our Extra Thin Cutting Discs range the Phoenix Silver range of cutting and grinding discs is designed specifically for use on stainless steel as these specialist discs do not leave residue or contamination. Produced to O.S.A. Safety standards and marked with EN12413. Silver discs are popular for use within the food, nuclear and petrochemical industries.

PHOENIX EXTRA THIN CUTTING DISCS

Our Phoenix discs are one of our signature products. A superior quality European manufactured range of extra thin cutting discs produced to O.S.A. Safety standards. Extremely fast and precise cutting with minimal effort required. Phoenix discs have been developed for precision cutting sheet metal and with strengthened core stability for reduced vibration. Our Phoenix Extra Thin Discs do not contain iron, sulphur or chlorine so are suitable for stainless steel cutting applications.

MULTI MATERIAL 5-IN-1 CUTTING DISCS

The "5 in 1" Multi Material disc has been designed for cutting applications on virtually all materials including metal, stone, stainless steel, aluminium and plastic/PVC. Professionals using this disc will no longer need to change discs for different materials leading to higher productivity, reduced product issues and increased operator safety.

FOR USE ON	METAL	STAINLESS STEEL	STONE	ALUMINIUM	PLASTIC

Part No.	Pack Qty	Specification	Grade	Max RPM
835432	10	115mm x 1.6mm x 22mm Flat Multi-Material Cutting Disc	AC36-RBF	13,300

MULTI-PURPOSE 3-IN-1 DISCS

The "3-in-1" Multi Purpose disc can be used for cutting, grinding and finishing applications simply by altering the angle at which the disc is used. 90 degrees for cutting, 30 degrees for grinding and 15 degrees for finishing. An extra layer of reinforcing has been added to the disc to ensure that it can cope with additional side pressure from grinding. The disc is also INOX (iron, sulphur and chlorine free) meaning that it can be used on stainless steel without any risk of material contamination or rust formation.

NON-WOVEN FLAP DISCS

Non-Woven Flap Discs are premium quality, manufactured using strengthened synthetic fibre and bonded by a specialist smear resistant adhesive which prevents clogging. This product is specifically designed for cleaning, polishing & finishing a wide range of materials. Available in 3 levels of coarseness to suit a variety of applications.

FOR USE ON	STAINLESS STEEL	MILD STEEL	SHEET STEEL	HIGH GRADE STEEL

Part No.	Pack Qty	Specification	Colour	Max RPM
835291	5	115mm x 22mm Coarse Non-Woven Flap Discs	Brown	13,300
835292	5	115mm x 22mm Medium Non-Woven Flap Discs	Maroon	13,300
835293	5	115mm x 22mm Fine Non-Woven Flap Discs	Green	13,300

POLY PRODUCTS RANGE

With our Poly Disc range you can bring old and rusty materials back to their former glory without damaging the applications surface. They are a unique and versatile product designed for removal of rust, paint, thermal blueing and other contaminants. Made from a non-woven nylon web covered in a specialist synthetic resin. Poly Products can be used on a wide range of applications including metal, wood, concrete, aluminium and stainless steel.

PRODUCT DEMONSTRATION VIDEO

POLY DISCS & WHEELS

Abracs ultimate performance Poly Products have a unique structure and synthetic resin coating which enables effective removal of rust, paint, thermal bluing and other contaminants. The lightweight fibreglass backing absorbs vibration and makes this product incredibly strong and durable. The design of these unique products ensures a minimal risk of scratching the work piece. Suitable for a wide range of materials.

HUB CLEANING TOOL

The Abracs Brake Hub Cleaning Kit product gives operators a quick and effective means of removing rust from the brakes, rotor and hub. The anti-clogging design keeps the abrasive minerals cutting at higher performance. The system removes rust and corrosion quickly, even in hard to reach places. The attachment provides quick disc changes with the convenience of running on high-speed tools. All this adds up to saving time, increasing speed and effectiveness.

COBALT HOLESAWS

Abracs extensive range of expert quality Cobalt Holesaws for use on a wide range of applications. Our Cobalt Holesaws are designed for use by professional trades people and manufactured from premium quality materials. We use Bi-metal construction with 8% Cobalt for extreme strength, durability and performance. Abracs Holesaws are manufactured with high speed variable pitch teeth for fast and clean cutting and are suitable for use on a full range of materials.

HSS COBALT DRILL BITS

Abracs HSS Cobalt Drill Bits are precision ground for high performance. The addition of 5% cobalt into the High Speed Steel increases lifetime, strength & wear resistance, keeping the drill bit sharper for longer. A key performance feature is their Split Point cutting head. The Split Point allows the drill bit to instantly grip the material resulting in higher precision, accuracy and significantly faster drilling speeds.

AUTO ACCESSORIES

BRAND NEW RANGE OF PROFESSIONAL AUTOMOTIVE FINISHING PRODUCTS

FLAT H&L SPONGE PAD

Abracs Flat Hook & Loop Sponge Pads are designed to remove severe oxidation, scratches and swirls on painted surfaces and daily maintenance in the automotive industry. The polyester sponge material offers excellent tensile strength and durability for high performance and extended product lifetime.

FOR USE ON	PAINT	SCRATCHES	SWIRLS	OXIDATION
------------	-------	-----------	--------	-----------

Part No.	Pack Qty	Specification
897002	1	150mm Flat Hook & Loop Sponge Pad - White (Compounding)
897004	1	150mm Flat Hook & Loop Sponge Pad - Orange (Polishing)
897006	1	150mm Flat Hook & Loop Sponge Pad - Black (Finishing)

CORRUGATED H&L SPONGE PADS

Abracs Corrugated Hook & Loop Sponge Pads are designed with a corrugated texture for increased performance to remove severe oxidation, scratches and swirls on painted surfaces and daily maintenance in the automotive industry. The polyester sponge material offers excellent tensile strength and durability for high performance and extended product lifetime.

FOR USE ON	PAINT	SCRATCHES	SWIRLS	OXIDATION
------------	-------	-----------	--------	-----------

Part No.	Pack Qty	Specification
897036	3	78mm Corrugated Hook & Loop Sponge Pad - White (Compounding)
897038	3	78mm Corrugated Hook & Loop Sponge Pad - Orange (Polishing)
897040	3	78mm Corrugated Hook & Loop Sponge Pad - Black (Finishing)
897008	1	150mm Corrugated Hook & Loop Sponge Pad - White (Compounding)
897010	1	150mm Corrugated Hook & Loop Sponge Pad - Orange (Polishing)
897012	1	150mm Corrugated Hook & Loop Sponge Pad - Black (Finishing)

BEVELLED H&L SPONGE PADS

Abracs Bevelled Hook & Loop Sponge Pads are designed with a bevelled outer edge to adhere to the contour of the work surface. Designed to remove severe oxidation, scratches and swirls on painted surfaces and daily maintenance in the automotive industry. The polyester sponge material offers excellent tensile strength and durability for high performance and extended product lifetime.

FOR USE ON	PAINT	SCRATCHES	SWIRLS	OXIDATION
